# Energizer Industrial 400 Lumens Headlamp

## ENR HDDIN32E.5 NA WB IND VIS HD+FOCUS HL

*Light your way out of even the darkest places with this innovative headlight, the lightweight, hands-free Energizer Industrial 400 Lumens Headlamp. With its pivoting head for customizable, directional light, up to 85-meter beam, and IPX4 water-resistant construction, this durable headlamp is the ideal choice for any lover of the outdoors. Its thoughtful design lets you choose from 5 light modes, including night vision, and its red LED light makes it great for nighttime illumination, whether you're camping, hiking, or fishing. The digital focus of this LED headlight also allows you to seamlessly transition from spotlight to full flood light. The super comfortable and adjustable band fits a range of sizes, from kid to adult, and is completely washable. With advanced memory recall, you can quickly return to working with the last focus setting you used before powering off. Give a round of applause to our best hands-free Energizer Industrial 400 Lumens Headlamp for all your adventures.*

### Features & Benefits

- Lightweight and comfortable Energizer Industrial 400 Lumens Headlamp works with 3 Energizer AAA batteries (batteries included)
- Powerful beam reaches up to 85 meters and puts out up to 400 lumens with its LED technology
- Switches easily between 5 light modes: high, low, full spot, full flood, and night vision (red) for outdoor illumination anytime, anywhere
- Pivoting headlight with Digital Focus conveniently allows the beam to adjust from wide-range to a focused beam
- This durable headlamp resists damage from drops up to 1 meter high, for worry-free use, whether you're hiking, biking, or working around the garage
- IPX4 water-resistant construction withstands splashing
- Runs for up to 3 hours in high mode
