|                          |                                                              |
|--------------------------|--------------------------------------------------------------|
| Noise Level <sup>4</sup> | Less than 80 decibels A-Scale (dBA)                          |
| Heat/Flame Resistance    | Headgear should not be exposed to high heat, flame or sparks |
| Natural Rubber Latex     | Does not contain components made from natural rubber latex   |

- 1. 3M supports an assigned protection factor (APF) of 1000 for the S-400, 500, 600, 700, and 800 series hoods which is consistent with OSHA's APF defined in 29 CFR 1910.134. [3M Technical Data Bulletin #175](#) describes the test procedures and data supporting an APF of 1000 for 3M hoods and helmets. 3M Technical Data Bulletins are available at [www.3M.com/workersafety](http://www.3M.com/workersafety). In Canada, follow CSA Z94.4 or the requirements of the authority having jurisdiction in your area.
- 2. Weight is complete assembly (hood plus head harness). Use of optional size reducing pad with the S-600, 700, 800 series will add approx. 6 g (0.2 oz.) to the overall weight.
- 3. Consult S-Series User Instructions for detailed sizing guidelines, charts and optional sizing pads.
- 4. Excluding external noise.

 **WARNING**

These respirators help reduce exposures to certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of the product packaging. Follow all local regulations. In the U.S., a written respiratory protection program must be implemented meeting all the requirements of 29 CFR 1910.134, including training, fit testing and medical evaluation. In Canada, CSA standard Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For correct use, see Supervisor and *User Instructions*, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.
