Materiel

- Sealed ABS case

Main Features

- Sealed battery case for short-circuit protection
- LED bulb is place in an anti-static housing which makes it explosion-proof
- An automatic power-off device preserves the LED bulb which has a lifespan of 100,000 hours.
- Works with rechargeable "Li-ion" battery (included)
- Continuous use time of 15 hours

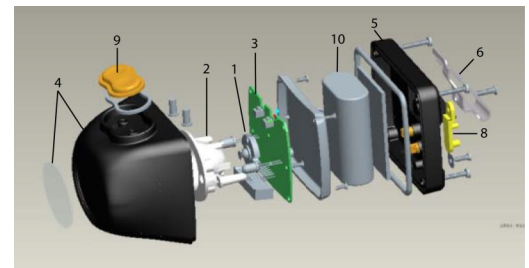

Features

Features	Technical specifications
• Rated capacity	• 4.5Ah (Li-ion battery)
• Rated voltage	• 3.7V
• Continuous discharging time	• >15h
Main LED bulb:	
• Working voltage	• 3.2V
• Working current	• 0.35A
• Power	• 1W
• Luminous flux	• >60Lm
• Lamp lighting degree (distance of 1m or 3.3')	• >3000Lux (at starting time) • >2000Lux (after 11 working hours)
• Main LED usage life hour	• >30 000 h
• Weight	• <215g
• Emergency LEDs usage life hour	• 100000h
• Short circuit protect time	• <15ms
• Usage duration of battery (recharges)	• 1000 recharges (in reasonable working condition)
• Charging time	• < 6 heures
• Charging voltage and current	• 5V@1A
