

Technical Data

Color	Silver
Sizes Available	OS
Packaging	Boxed
Packed	15/Case
Case Weight (kg)	0.00
Anchor Type	Concrete Anchor
Connector Type	Steel
Certifications	TAA Compliant
Anchorage Connectors Rated For	22 kN (5,000 lbs)

Miller®

Permanent D-Bolt Anchor with Cap

- Provides a secure anchoring point, significantly reducing the risk of falls
- Constructed from drop-forged alloy steel for durability, ensuring long-term use even in challenging environments
- The unique cap design helps prevent debris accumulation around the anchor
- Engineered for permanent installation, ideal for concrete applications
- Designed for various thickness applications
- Tensile strength rated for up to 5,000 lbs.
- Supports up to 400 lbs, accommodating a wide range of workers and equipment
- Adheres to ANSI A10.32, ANSI Z359.1-2007, OSHA 1910.66, and OSHA 1926.502(d) regulations
