Oil Spill Kit – 55 Gallons

DEK025

Description

Be ready to respond quickly to spills with this comprehensive kit, designed to absorb up to **55 liters of oil**. Whether it's during refueling, equipment leakage, or an unexpected incident, this all-in-one solution enables **immediate action**, minimizing risks to workers and the environment.

Designed to simplify emergency response in the workplace, the kit includes **specialized absorbents that effectively capture oil while repelling water**, ensuring targeted management of hydrocarbons.

An ideal solution for fast and effective response to critical spill incidents, while ensuring safety, compliance, and efficiency.

Material

- Waterproof Plastic Protective Container – 208L (55 Gallons)
- Absorption Capacity: 55 Gallons

Content

- 1 x 55 Gallon Drum with lever lock lid
- 200 x Oil only pad (15" x 19")
- 10 x Oil only SOCS (3" x 48")
- 2 x Neoprene drain cover
- 5 x Oil only pillow (18"x 18")
- 5 x Compressed Peat Moss 5 lbs
- 10 x Yellow Haz Bag
- 10 x Zip ties
- 1 x Instructions sheet

Drum: 55-gallon drum with lever lid, ideal for responding to large spills.

Absorbent SOCS: Perfect for surrounding and containing spills, preventing them from spreading.

Oil absorbent pads: High absorption capacity, designed to target hydrocarbons while repelling water.

Neoprene drain covers: Protect sewer systems from contamination.

Hazardous waste bags: For the safe and compliant disposal of contaminated materials.

Zip-ties: To seal waste bags and maintain order during cleanup operations.

Absorbent pillow: For high-volume areas or leaks under equipment.

Compressed peat moss: Ultra-absorbent natural material for complex spills.

Spill procedure

1. **Assess the risk:** Assess the spill and identify the source. If you are unfamiliar with the liquid and its chemical properties, leave the area and contact the appropriate authorities.
2. **Protective clothing:** Wear protective equipment appropriate to the situation. If the source or substance cannot be identified, assume the worst.
3. **Contain spill:** Contain liquid and seal drains.
4. **Stop source:** Turn off faucets, rotate perforated drums and plug leaks where possible and safe to do so. Begin clean-up Use Brady SPC absorbents to safely clean up spills.
5. **Contact authorities:** Report the spill to the appropriate legal authorities in your community. Be sure to file all necessary reports in accordance with local laws.
6. **Dispose of used materials :** Absorbent materials take on the characteristics of whatever they absorb. Be sure to dispose of used sorbents and spilled liquids in accordance with local laws.
7. **Decontaminate:** Clean all tools and reusable materials appropriately before reuse.
8. **Replace absorbent materials** and safety equipment used in any clean-up operation.
9. **Review contingency plans and procedures!**
