Care and washing instructions

A good way to keep leather gloves longer is to clean them regularly.

- Dry cleaning - best option to retain the natural oils of the leather
- Clean with a cloth and a mild soap that contains natural fats (e.g. Marseille soap)
- Clean with a soft, damp cloth, removing any dirt
- Air dry only
- Do not clean with hard soap as it removes the natural oils from the leather and makes it stiffer.

Sizing Chart

Size Kosto *		Universal
1	Width (hand)	13
		5.1
2	Length (glove)	20
		7.8

* The measurements are those of the product.

* A fitting is always recommended.
