

Dexterity Max™ | S24TAXGHN

Hi-viz cut resistance with maximum flexibility and unrivaled touch sensitivity for extreme precision tasks and visibility

ABOUT THE PRODUCT

Our hi-viz green Dexterity Max™ S24TAXGHN are micro-knit to deliver the industry's thinnest cut-resistant gloves with unrivaled dexterity and touch sensitivity. Featuring a hi-viz green shell for better hand placement and worker visibility, their TenActiv™ engineered yarn provides 360° cut protection with high ANSI A6 cut resistance. They offer electrostatic dissipative properties that ground energy when working with microelectronics. Our specially formulated Haptica™ foam nitrile palm coating is hyper-thin for maximum tactility and steady wet grip, making these gloves ideal for extreme precision applications where maximum dexterity and visibility is required and where high cut hazards are present.

RECOMMENDED FOR

Assembly, Blade Handling, Food Handling, General Labour, Light Stamping, Maintenance, Small Parts Handling

APPLICATIONS

AEROSPACE, AUTOMOTIVE, CONSTRUCTION, FOOD PROCESSING, GLASS MANUFACTURING, METAL FABRICATION, WAREHOUSING

MATERIAL

TENACTIV™

AVAILABLE SIZING

5, 6, 7, 8, 9, 10, 11, 12

PALM COATING

HAPTICA™

COATING STYLE

PALM

CARE

WASH COLD WATER AND TUMBLE DRY IN LOW HEAT; SAFE TO USE BLEACH OR DETERGENT

SHIPPING AND PACKAGING

Unit of Measure	Pair
Country of Origin	Honduras

FEATURES AND TECH

CFIA Compliant	Yes
ESD/ Anti-Static	Yes
FDA Compliant	Yes
High Visibility	Yes
Latex Free	Yes
Touchscreen Friendly	Yes
Food Safe	Yes
TAA Compliant	Yes

LAUNDERING INSTRUCTIONS

Wash Cold Water and Tumble Dry in Low Heat; Safe to use Bleach or Detergent
