Chemical Resistant Glove PVC and NBR Coated 14"

MKC010

Description

These Kosto work gloves are fully coated with PVC and NBR for excellent, ultra-resistant protection and flexibility. They offer high resistance to oil and many chemicals to protect your hands and keep them dry, whatever the task, and A2-level cut resistance. The PVC foam finish also enhances grip, perfect for handling objects in wet environments.

Certification

- ANSI/ISEA 105-2023 :
Cut resistance: A2 - 665g
Abrasion: 6
Puncture: 2
- EN 388:2016 : **4141X**
- EN ISO 374-5: 2024 **Micro organism**
- EN ISO 374-1 :2024 **Permeation: Type B KLPT**
 (Les Type B gloves offer protection against chemical penetration for at least 30 minutes for at least 3 chemicals tested).
- Other test performed: Level 1 protection against n-Heptane (J), guaranteeing resistance for at least 10 minutes.*

Material

- PVC-NBR coated 3 layers
- 13g cotton and acrylic lining

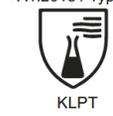

Size

Care and washing instructions

A good way to keep gloves longer is to clean them regularly.

- Clean by hand with a mild and/or natural soap
- Clean with a soft, damp cloth, removing any dirt
- Air dry only
- Do not use bleach
