GRIPPRO SPIKELESS

DueNorth® GripPro™ Spikeless Traction Aids cater to workers transitioning between indoor and outdoor surfaces. The non-spiked design safeguards flooring while ensuring extra grip in diverse work environments. Proprietary hi-vis chevrons enhance traction, specially designed treads channel water away, and a natural rubber material with a proprietary polymer blend maintains flexibility in sub-zero temperatures. The slip-on design fits over boots and shoes, featuring an easy on-off pull tab for quick adjustments, making them suitable for activities like driving, climbing, and walking on grates.

ERGO THERMAL

MEGAComfort's Ergo Thermal Insole is designed to keep feet warm and comfortable in winter weather conditions. Featuring Ultra Thermal Insulation in an ultra-thin layer, these insoles provide exceptional warmth without sacrificing comfort or support. They offer superior cushioning for long days on the job, while Solarcore Technology helps retain heat in cold environments. Field-tested for reliability, the Ergo Thermal Insole outperforms standard anti-fatigue floor mats in reducing muscle strain and improving overall comfort in industrial footwear. Ideal for stationary, mobile, and outdoor workers, these insoles offer unmatched warmth and support, making them essential for winter work environments.

THE PROBLEM:

-  **COLD FEET** are common for outdoor workers in winter weather.
-  **REDUCED BLOOD FLOW** to feet in cold temperatures leads to discomfort, fatigue, and risks like trench foot or frostbite.

WHY IT'S IMPORTANT:

-  **COMFORT & SAFETY:** Warm, dry feet improve comfort and reduce health risks from cold exposure.
-  **BOOSTED PRODUCTIVITY:** Less fatigue means more focus and efficiency on the job.
-  **HEALTH PROTECTION:** Prevents cold-related issues like frostbite and trench foot.

THE SOLUTION: ANTI-FATIGUE INSOLES MEET Solarcore® TECHNOLOGY

-  **Solarcore® THERMAL TECHNOLOGY:** NASA-inspired material that traps heat, keeping your feet warm without adding bulk.
-  **ERGONOMIC ANTI-FATIGUE DESIGN:** Cushioned support reduces fatigue, providing all-day comfort while working.
-  **MOISTURE-WICKING:** Keeps feet dry, preventing sweat buildup and cold feet.

INDUSTRIES THAT CAN BENEFIT:

-  **CONSTRUCTION:** Workers exposed to cold weather for long periods need extra warmth and support.
-  **OUTDOOR LABOR:** Agricultural, landscaping, and forestry workers benefit from added protection against cold, wet environments.
-  **LOGISTICS & TRANSPORTATION:** Drivers and delivery personnel who are in and out of cold vehicles.
-  **MANUFACTURING:** Employees working in cold storage or large unheated warehouses.
-  **EMERGENCY SERVICES:** Police officers, firefighters, and rescue workers operating in harsh winter conditions.
