### Care Guide

A good way to keep leather boots longer is to clean them regularly.

- To start, take off the laces and clean with hot water and a shoe brush removing dirt
- Remove pebbles stuck in the sole
- Wipe the boot with a dry cloth and air dry only
- DO NOT clean with harsh soap as this removes natural oils from the leather and makes it more rigid

#### General tips

- Try the boots on both feet, as both feet can be different sizes.
- Boots should fit snugly at the heel and ankle when laced up.
- Wear your work stockings during the fitting
