Non-Slip Outsole with Cleats K-Grip

PCK001

Description

The Kosto PCK001 steel crampons offer excellent traction on ice and snow, helping you maintain balance and stability for better safety.

They are easy to put on and take off, just insert the toe of your shoe into the front buckle and grab the strap at the back and stretch it over the heel of your shoe.

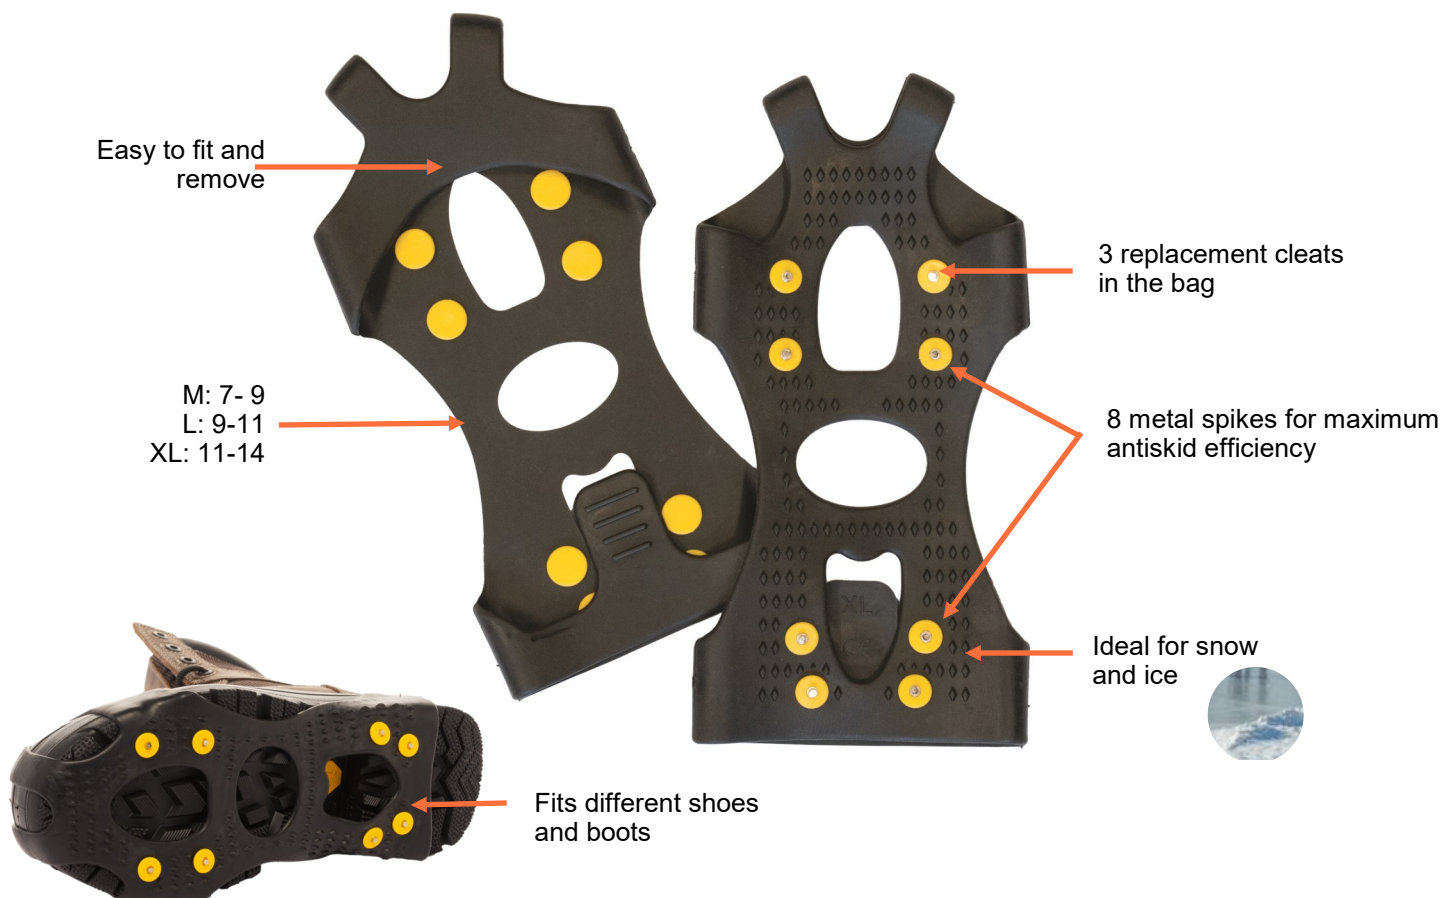

It's an essential piece of equipment that helps you walk, run and work with confidence in slippery winter conditions.

Material

- Flexible rubber
- Metal cleats rust proof nickel plating

Size

M to XL

Care Guide

Maintenance and life span:

It is important to take good care of your cleats so that they last a long time. Therefore, it is essential to always dry them well after use and to rinse them when used in salty areas.

When cleaning, it is important not to use solvents, as they can weaken the rubber. We recommend a mild soap and warm water if you really want to wash them.

Size Chart

Kosto Sizes * US/CAN		M	L	XL
1	Length (foot)	7-9	9-11	11-14

* A fitting is always recommended before use.
