Net weight:	1.14 kg
Gross weight:	1.16 kg

DATASHEET

MINI PULLEY SYSTEM

Lightweight, compact and comfortable: SKYLOTEC offers an innovative new 6:1 Mini Pulley System. This ultra-light system with a ratio of 6:1 makes for easy lifting and a rope lock secures the load. The Mini Pulley System is a compact pre-rigged rescue and hauling system often referred to as a "Casualty Pulley System", "Haul Track" or a "Pig Rig". Possible applications include the raising or lowering of casualties, the tensioning of systems such as Tyrolean or tension lines and lifting light loads such as hand tools and other equipment. Mini Pulley Systems can be applicable to all sectors of work at height and rescue. It is not limited to confined or restricted access locations or tall structures. The set includes 23 metres of robust SKYLOTEC micro-rope with an operating length of just under 4 metres, two trilock DOUBLE carabiners and a compact carry bag for easy storage and transportation.
