### Chin Strap for Hard Hats

**TMK050**

#### Description

The chin strap keeps the safety hardhat in place during activities where the worker is not in a vertical position and where there is a risk of falling. It is recommended that a chin strap be worn by any worker who wears a fall arrest harness as part of their daily duties.

With the adjustable buckles and the 2-point attachment, the TMK050 is very easy to install.

#### Material

- Elastic chin strap with chin cup for a comfortable fit

#### Size

Universal

Use with Kosto hard hats  
TCK101 / TCK102 / TCK103 /  
TCK104 / TCK105 / TCK106

Easily attaches to the  
helmet side clip

### Washing instructions and use

#### Washing instructions:

It is recommended in the CSA Z94.1-15 standard to check and clean one's head protection equipment daily. It is recommended to clean the chin strap with warm water and a mild soap (dish soap).

#### Caution:

According to the Canadian Centre for Occupational Health and Safety, the chin strap should not be pulled up over the brim or visor of a hard hat. Therefore, you should never detach your chin strap and reattach it over the peak of your hard hat. The same goes for stretching the chin strap; you should never stretch the chin strap so that it goes over the hard hat vane.

### Sizing Chart

Size Kosto *		Elastic	Chin strap
1	Width	4.5	4
		1.8	1.6
2	Length	33	8
	(circumference)	13	3.15
