Orange

Description

This short-sleeve tee is made for workers who put in long hours in the heat. Being seen is essential for road and construction crews, traffic control, and anyone in low-light or high-traffic situations. The wide, breathable reflective tape gives drivers a larger, brighter target to spot from afar. It keeps you visible from every angle while staying comfortable against your skin. The lightweight Exodry® Grid-Tech™ fabric quickly wicks away sweat and allows for airflow as you move, helping you stay cool throughout the day. Put it on at dawn and let it work just as hard as you do, from the first job to the last.

- Relaxed fit
- 1 Left chest pocket with pencil division
- Printed label (tagless)
- 2 Reflective Mic loops
- Thumb holes at cuffs
- Segmented tape is more comfortable & breathable
- Exodry® Grid-Tech is a lightweight grid fabric that regulates body temperature with warmth-without-weight construction and a bi-component knit for moisture-wicking breathability
- Reflective Material placement provides 360° visibility with 2 vertical stripes on the front, a horizontal stripe around the waist, a horizontal stripe around each arm and an "X" on back
